Profile

Finance professional with seven years of experience in reporting, planning and control. I work at the intersection of **numbers and strategy** — turning financial data into clear, actionable insight that helps leaders make confident decisions. Known for reliability, a direct approach and consistent delivery under pressure, with an international background spanning the Netherlands, Spain and Mexico.

Experience

Business Controller

May 2023 – Present

Ahold Delhaize

Amsterdam Area, The Netherlands

- Manage month-end closing for the European Business Services (EBS) organisation, ensuring accurate and timely reporting in line with internal standards.
- Prepare monthly reports and performance analyses, translating results into business insights for EBS leadership and European stakeholders.
- Coordinate budgeting and forecasting, supporting stakeholders with planning, scenario analysis and variance explanations.
- Analyse actuals vs. budget and forecast, identifying key drivers, risks and opportunities for management attention.
- Drive process improvements across reporting, planning and month-end closing within EBS.

SELECTED PROJECT

Supported the setup of a new Service Hub in Serbia — acted as Business Controller during the build-up phase, delivering financial reporting, planning and decision support while participating in the Management Team and providing board-level updates.
